(T012) Management
(T059) Elementary Probability
(AQ7) History of economics thought
and Policies

2 semester

(AH5) Economic growth and
development (8 cfu)
(AA7) International economics (8
cfu)

2 semester

(AG7) Capital Markets
(T001) Entrepreneurship, innovation
and technology

If you choose the Management Track...

Additional courses

What you **CAN** do....

- Login to your web self-service page between July 20 and 25 Choose 1 or 2 additional courses out of the list
- Save your choices!!
- check if your last choices have been inserted correctly: logout and then login again!

You can login and change your choices only between July 20 and 25

Additional courses

What you **should** know...

- The choice of the additional courses is **OPTIONAL**
- If you want to choose additional courses you can make the selection out of the list proposed
- Check very carefully the timetable before making your choice to be sure that there is no clash!
- You cannot decide to insert additional courses after July 25

Additional courses What we propose...

All the elective courses will be available as additional courses

- The additional courses have to be different than the ones you have already chosen as electives
- Only additional courses from the list will be considered in the point average grade

For students going abroad...

If you will attend the Erasmus program:

- The choice of the track and the elective courses is **mandatory** even if you will attend the Erasmus program
- select your track and then 2 elective courses with similar subjects than the courses you will take abroad
- You have to choose the elective courses even if you are not sure if the courses will take place in your host University abroad
- Only if you really don't find any similar subject, select: «Corso a scelta sostenuto all'estero».
