

## *Human vs. AI Financial Advice*

### **Research Assistant Internship in the Department of Economics and Finance**

#### **1. Tutor**

- Prof. Andrej Angelovski, [aangelovski@luiss.it](mailto:aangelovski@luiss.it)

#### **2. Skill and Experience required**

- Languages: English & Italian
- Skills required: Econometrics, statistical software (preferably Excel & STATA)

#### **3. Job description: “Human vs. AI Financial Advice”**

The objective of this research project is to study the effect of received financial advice on future investments, depending on whether it came from a financial advisor or a financial algorithm. This is a project run in collaboration with CONSOB for the purpose of understanding individuals' perception on received financial advice.

The intern will be involved in the running of lab experiments for the purpose of the project, the review of the literature, and some sorting and analysis of the data.
